

QGIS Application - Bug report #21952

QGIS Server does not well provide type for virtual field.

2019-04-29 11:40 AM - Roberto Marzocchi

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	QGIS Server	
Affected QGIS version:	3.4.7	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 29767
Description		
Virtual field defined with double precision type in QGIS server are provided as integer (output content of DescribeFeatureType in XMLSCHEMA)		

History

#1 - 2019-05-01 05:59 PM - Giovanni Manghi

- Easy fix? changed from Yes to No
- Status changed from Open to Feedback

Is a regression compared to QGIS Server 2.*?

No. Same problem also using QGIS Server 2.18.*

NB problem tested on a PostGIS layerm even if the virtual field is only created on the QGIS project
