<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b>	29811
<b>Description</b>			
<p>When language in QGIS is set up to "polish" (Options &gt; Settings &gt; General) and uses decimal sign as comma, then I can't input a decimal value into Z-COORD in the vertex-editor. Setting language to US-English solve the problem.</p> <p>It was described at: <a href="https://gis.stackexchange.com/questions/321643/how-to-manually-input-decimal-value-into-z-coord-in-qgis">https://gis.stackexchange.com/questions/321643/how-to-manually-input-decimal-value-into-z-coord-in-qgis</a></p>
