

QGIS Application - Bug report #22024

Feature edits dont save - temp layer

2019-05-08 06:54 PM - Rob Erogaster

Status:	Feedback	
Priority:	Normal	
Assignee:		
Category:	Editing	
Affected QGIS version:	3.6.2	Regression?: No
Operating System:	Windows 10	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 29838
Description		
<p>I added a geojson polygon layer. Then I toggled editing, select a feature, and deleted it. It disappears as expected. Next, I toggle editing, click yes when prompted to save edits. Then the deleted polygon re-appears. In the source folder, I see a temp file with the saved edits (i.e. some_file..geojson.tmp). If I remove the layers and re-add the geojson I meant to edit, it appears without the saved edits.</p>
