QGIS Application - Bug report #22114

All menus and tables are magnified :/ 2019-05-21 02:38 PM - Shiva Raissi

Status: Open **Priority:** High Assignee: Category: Unknown Affected QGIS version: 3.6.2 **Regression?:** No **Operating System:** Easy fix?: No Pull Request or Patch supplied: **Resolution:** Crashes QGIS or corrupts data: Copied to github as #: 29927 Description Hi, Since yesterday, all menus and tables are magnified in QGIS. I tried uninstalling and reinstalling the application but that didn't solve the issue. I'm using the 3.6.2 version and didn't have this issue before updating to this version. I would appreciate if someone can help me with this. Thanks.
