

## QGIS Application - Bug report #2307

### Edit widget not working correctly ( show first value instead of the correct one)

2009-12-21 06:28 AM - pinux -

<b>Status:</b> Closed	
<b>Priority:</b> Low	
<b>Assignee:</b> nobody -	
<b>Category:</b> Vectors	
<b>Affected QGIS version:</b>	<b>Regression?:</b> No
<b>Operating System:</b> Windows	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	<b>Resolution:</b> fixed
<b>Crashes QGIS or corrupts data:</b>	<b>Copied to github as #:</b> 12367
<b>Description</b>	
<p>When I'm using the Feature form with the edit widget "Unique value" I'm not getting the correct attribute of the feature. I'm getting the first one that is in the list. I have the same problem with shapefile and postgis. I have experienced the same problem even with the another widget.</p>

Sorry. Works with both for me. Can you provide a testcase?

*I have experienced the same problem even with the another widget.*

And the other one is?

##### #2 - 2009-12-21 08:14 AM - pinux -

It is not working only with Unique value. Here is a screenshot, you can see how the attributes are differen, for the same polygon. The error is present even qith custom forms.

looks like it's already fixed in commit:e863e7d5 (SVN r12546). Try to update.

#4 - 2009-12-21 11:56 PM - pinux -

- Resolution set to fixed

- Status changed from Open to Closed

It is fixed now.
