

QGIS Application - Bug report #2327

Vector GRASS mapsets stored in the folder with Cyrillic cannot be loaded

2009-12-26 07:03 PM - Maxim Dubinin

Status: Closed	
Priority: Low	
Assignee: Lorenzo Masini	
Category: GRASS	
Affected QGIS version:	Regression?: No
Operating System: Windows	Easy fix?: No
Pull Request or Patch supplied:	Resolution: duplicate
Crashes QGIS or corrupts data:	Copied to github as #: 12387
Description	
<p>If I have some vector and raster mapsets and I created a project with them which I then move to folder that contains Cyrillic characters (i.e. c:\\temp\\kyky), the project fails to load vector layers from such folder, surprisingly rasters load just fine.</p> <p>Might be related to https://trac.osgeo.org/qgis/ticket/1904</p>

History

#1 - 2009-12-27 08:10 AM - Jürgen Fischer

- Resolution set to fixed
- Status changed from Open to Closed

fixed in commit:53e47794 (SVN r12626).

#2 - 2009-12-31 11:21 AM - Maxim Dubinin

- Resolution deleted (fixed)
- Status changed from Closed to Feedback

I'm afraid this is still not working. Just tested on .

#3 - 2010-03-25 02:18 AM - Redmine Admin

- *Resolution set to duplicate*
- *Status changed from Feedback to Closed*

The reason is the same as here: <https://trac.osgeo.org/ggis/ticket/1904>
