

QGIS Application - Feature request #2340

Login and password for WMS servers don't deleted when removing connection

2010-01-03 04:01 AM - Alexander Bruy

Status: Closed	
Priority: Low	
Assignee: Marco Hugentobler	
Category: Web Services clients/WMS	
Pull Request or Patch supplied:	Resolution: fixed
Easy fix?: No	Copied to github as #: 12400
Description	
When deleting WMS connection the login and password are not deleted from settings. For reproduce:	
<ul style="list-style-type: none">- create a new WMS connection and fill all fields including username and password- look in settings (registry or file). There are two groups in settings: Qgis/connections-wms/<connection name> group with server URL and /Qgis/WMS/<connection name> group with username and password- delete this new connection and look in settings again. The /Qgis/WMS/<connection name> group with username and password is not deleted
