Description

Open th epython console. The "Execute" and "Eval" buttons both work when I press Alt+x and Alt+e respectively. the other buttons' accelerators, Alt+p for "Previous" and Alt+n for "Next" don't work

History

- Resolution set to wontfix

- Status changed from Open to Closed

Set to won't fix because the Python console is changed in 1.5 to no longer use the buttons. It will mimic the Python Shell.
