QGIS Application - Feature request #2350
Return option to view items on canvas in attribute table

2010-01-07 01:13 PM - John Tull

Status:	Closed		
Priority:	Low		
Assignee:	nobody -		
Category:	GUI		
Pull Request or Patch supplied:		**Resolution:**	fixed
Easy fix?:	No	**Copied to github as #:**	12410

Description

I find myself missing the ability to have the attribute table display only the items on the current canvas. I understand that this was a workaround to improve table performance for large datasets, and that this was removed once the underlying performance issues were addressed. Nonetheless, it is a very useful feature and would be nice to have returned.
