

QGIS Application - Bug report #2355

WMS "identify features" results window barely readable

2010-01-11 08:46 AM - Giovanni Manghi

Status: Closed	
Priority: Low	
Assignee: Marco Hugentobler	
Category: Web Services clients/WMS	
Affected QGIS version:	Regression?: No
Operating System: All	Easy fix?: No
Pull Request or Patch supplied:	Resolution: fixed
Crashes QGIS or corrupts data:	Copied to github as #: 12415

Description

Add a WMS layer and use the "identify features" tool.

If the original vector layer has a table of attributes with enough columns, than the readability of the identify results is scare, as values are presented horizontally (see attached image).
