I'm using with a Garmin 60CSx and I'm not able to get the Live GPS using the usb port. I know that it can be done based on my experience using QLandkarte GT (see [It would be great if the qgis devs could use the code \(which is GPL\) in QLandkarte Garman GPS driver \(see \[http://www.qlandkarte.org/index.php?option=com\\_content&#38;view=article&#38;id=16&#38;Itemid=18\]\)](#)).

#2 - 2010-01-12 11:37 PM - joe larson

- Resolution set to fixed

- Status changed from Open to Closed

Window nows displays in 'r 12752'
