QGIS Application - Bug report #238
Zoom to map fails on startup

2006-08-16 05:28 AM - neteler-itc-it -

Status:	Closed		
Priority:	Low		
Assignee:	Gavin Macaulay -		
Category:			
Affected QGIS version:		**Regression?:**	No
Operating System:	All	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	fixed
Crashes QGIS or corrupts data:		**Copied to github as #:**	10297

Description

[QGIS-SVN recompiled from scratch today]

When loading a SHAPE file into QGIS, such as:
 qgis italy_state_LL.shp

it no longer zooms to the map extent but it
remains at -1,-1:1,1. This isn't very intuitive
and must have been introduced recently.

Please re-enable the feature to show a map
after startup. However, when I first start
qgis, then load the map, it works (shows the
map immediately).

thanks,
Markus

My fault. Will fix soon.

#2 - 2006-08-16 06:17 PM - Gavin Macaulay -

- *Resolution set to fixed*

- *Status changed from Open to Closed*

Fixed in svn commit:fce66036 (SVN r5704).

If there are no command line arguments, the extent is -1,-1,1,1, but if there are, the extent is determined by the layers loaded (as before).
