QGIS Application - Bug report #2429
Crash when editing GRASS vector

2010-02-10 06:54 PM - dthonon -

Status:	Closed		
Priority:	Low		
Assignee:	Lorenzo Masini		
Category:	GRASS		
Affected QGIS version:		**Regression?:**	No
Operating System:	All	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	fixed
Crashes QGIS or corrupts data:		**Copied to github as #:**	12489

Description

When editing attributes of a GRASS point vector layer (points), clicking away from a point crashes QGIS 1.4.0.

History

#1 - 2010-02-11 12:23 AM - Giovanni Manghi

This is confirmed under both linux and windows (both with qgis 1.4 and trunk). Under linux I see only a "segmentation fault" error message.

It is reproducible not only with points (tested the mapset in the qgis sample dataset), just click with the "edit attributes" tool in the canvas. After the crash the vector that was being edited has problems

    Cannot open vector airports in mapset demo on level 2 (topology not available, try to rebuild topology using v.build module).

#2 - 2010-02-11 02:31 AM - Redmine Admin

- Resolution set to fixed

- Status changed from Open to Closed
