| <b>Description</b>   |               |                                     |
| <p>The coordinate reference system selector dialog displays buttons with the four most recently selected systems. For systems without a name, eg "Generated CRS (+proj=merc .....)" the string used to represent the system becomes very long. This makes the dialog expand to an inconveniently large size. I think it would be better to limit the size...</p> |               |                                     |
