

QGIS Application - Bug report #2470

Sizing issue with coordinate reference system selector

2010-02-25 12:55 PM - Chris Crook

Status: Closed	
Priority: Low	
Assignee: nobody -	
Category: Build/Install	
Affected QGIS version:	Regression?: No
Operating System: Windows	Easy fix?: No
Pull Request or Patch supplied:	Resolution: duplicate
Crashes QGIS or corrupts data:	Copied to github as #: 12530

Description

The coordinate reference system selector dialog displays buttons with the four most recently selected systems. For systems without a name, eg "Generated CRS (+proj=merc)" the string used to represent the system becomes very long. This makes the dialog expand to an inconveniently large size. I think it would be better to limit the size...
