System QDomNode is here:

```
/usr/include/QtXml/QDomNode
```

Bug still present as of commit:5ea14878 (SVN r12998)

Please can you check the compiler arguments?

Hint: use

```
make VERBOSE=1
```

to see the executed commands.

#3 - 2010-03-04 07:14 AM - Giovanni Manghi

I'm seeing the same error trying to compile on Ubuntu.

- Resolution set to fixed
- Status changed from Open to Closed

I believe this has been fixed by Juergen in commit:82a9fa1b (SVN r13009). Please reopen if still valid.
