Under linux (ubuntu 9.10, qgis trunk) is worst: qgis crashes. Tested with layers in the qgis sample dataset.

#2 - 2010-03-08 03:46 PM - cfarmer -

- Resolution set to fixed

- Status changed from Open to Closed

Fixed in commit:f60dda6b (SVN r13032). This error only occurred if the 'use selected' checkbox was checked and **no** features were actually selected. Now if this occurs, the Basic Statistics tool shows an error message instead.
