QGIS Application - Bug report #2515 No labels in the x-axis of the raster histogram

2010-03-07 09:09 AM - alobo -

Status: Closed **Priority:** Low Assignee: nobody -Category: Rasters Affected QGIS version: Regression?: No **Operating System:** Easy fix?: No **Pull Request or Patch supplied:** Resolution: fixed

Copied to github as #: 12575

Description

Histograms have numeric labels just at the extremes of the x-axis, which makes them difficult to inspect. Numeric values should be present for all tick marks in the x-axis.

History

#1 - 2011-03-07 08:57 AM - Anne Ghisla

Crashes QGIS or corrupts data:

- Resolution set to fixed
- Status changed from Open to Closed

They are present in trunk, - probably from before.
