2.5.1 (r251:54863, Apr 18 2007, 08:51:08) [MSC v.1310 32 bit (Intel)]		

History

#1 - 2010-03-07 10:16 AM - Giovanni Manghi

Hi,

under qgis trunk/ubuntu 9.10, if the output folder is called "Шейн" the tool works ok (beside the fact it assign the wrong projection. See a ticket posted yesterday).

#2 - 2010-03-07 10:30 AM - Alexander Bruy

Confirmed on Windows and Linux with commit:23ed0fef (SVN r13016)

#3 - 2010-03-07 03:45 PM - cfarmer -

Could either lutra or alexbruy clarify the above statements? Has the bug been fixed as of commit:23ed0fef (SVN r13016)?

-Carson

-Carson

it works for me (under linux) if the **output** folder has non ascii characters. But I didn't understand if this is the case stated in the ticket description, so it will be better to wait for Alexander feedback.

#5 - 2010-03-08 10:30 AM - Alexander Bruy

- Resolution set to fixed

- Status changed from Open to Closed

It works for me under Linux and Windows (commit:0e72bcbb (SVN r13024)). Thanks, Carson!
