

QGIS Application - Bug report #2531

if text values in attributes table begin with a letter with a accent, then alphabetic ordering is wrong

2010-03-07 02:01 PM - Giovanni Manghi

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	Vectors	
Affected QGIS version:		Regression?: No
Operating System:	All	Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed
Crashes QGIS or corrupts data:		Copied to github as #: 12591
Description		
<p>Pick a vector with a text column data type, and a few values in in it.</p> <p>Edit one of those values in order to the string begin with a letter like "É" or "À", save changes and then order alphabetically the column.</p> <p>The record with the value that begins with "É" or "À" (or any other char of this kind) do show at the bottom of the list instead of show where they belongs, among records with values that begin with "E" or "A".</p>
