QGIS Application - Bug report #2532
ilwis raster image opens but with no bands settings, so remains invisible until manually changing its symbology

2010-03-07 02:55 PM - Giovanni Manghi

Status:	Closed			
Priority:	Low			
Assignee:	ersts -			
Category:	Rasters			
Affected QGIS version:			**Regression?:**	No
Operating System:	All		**Easy fix?:**	No
Pull Request or Patch supplied:			**Resolution:**	invalid
Crashes QGIS or corrupts data:			**Copied to github as #:**	12592

Description

See attached screenshot.

Test raster also attached.

Until manually setting "single band gray" the image is not rendered.

- Resolution set to invalid

- Status changed from Open to Closed

No bug, just a bad qml file. Remove it and layer loads just fine. The next task may be to try and figure out why/how you got a bad qml file.
