# QGIS Application - Feature request #2592
## There is no network progress indicator for WMS layer now.

**Description**

Seems that network progress indicator in the status bar have been removed in recent versions of QGis. This is very annoying if you have slow network connection.

*- Resolution set to invalid*

Seems that WMS support is entirely broken. So, I will check for indicator later.

*- Status changed from Closed to Feedback*

*- Resolution deleted (invalid)*

No, there is no indicator every when WMS works :)

**#3 - 2010-03-26 11:17 AM - Jürgen Fischer**

That's also intentional.  WMS request are now handled asynchronously and therefore there can be multiple ongoing requests - showing progress of multiple parallel requests in the status bar would probably be more annoying.

**#4 - 2010-03-26 02:03 PM - jekhor -**

Yes, but simple text 'There are N pending WMS requests' or similar will make me happy :)

*- Resolution set to fixed*

well, progress indication readded in commit:c15058b9 (SVN r13168).

**#6 - 2010-04-01 03:31 AM - Luca Casagrande**

*- Status changed from Closed to Feedback*

*- Resolution deleted (fixed)*

Hello,
I can't see any message while waiting for a WMS layer, just a X of X byte downloaded when the data start to being downloaded. With big WMS layer or WMS with some latency, this can considered like the layer is not working.
I think that should be nice to have a sort of "Wait for WMS answer.." each time there's a WMS request pending.

Thank you
Luca

**#7 - 2010-06-08 01:06 PM - Jürgen Fischer**

*- Resolution set to fixed*

*- Status changed from Feedback to Closed*

fixed in commit:037831b9 (SVN r13695).
