| Category: Symbology | |
| Pull Request or Patch supplied: | Resolution: fixed |
| Easy fix?: No | Copied to github as #: 12685 |
| Description | |
| In New-Symbology, when choose a svgmarker, would be useful to link the orientation (angle) of svgmarker to a field of the attribute table. Actually the orientation of svgmarker is setting but fixed. | |

History

#1 - 2010-06-12 12:28 AM - Martin Dobias

- Resolution set to fixed
- Status changed from Open to Closed

Data-defined rotation (and size) has been added for symbology-ng. (though currently only for single symbol renderer)
