Crashes QGIS or corrupts data:			**Copied to github as #:**	12699

Description

Since a few days regular WMS layers don't show up in print composer any more. They neither show up in the print preview (layout view) nor in the printed output.

Same behavior on Linux (Ubuntu) and Windows.

Thanks for having a look at this bug!

Revision d54acce7 - 2010-04-13 10:52 AM - Jürgen Fischer

fix #2639:

- use asynchronous WMS GetMap requests only when render caching is active

- also cache WMS GetMap replies

git-svn-id: http://svn.osgeo.org/qgis/trunk/qgis@13305 c8812cc2-4d05-0410-92ff-de0c093fc19c
