

## QGIS Application - Feature request #2652

### Possibility to select the default column for the quick search in attribute table

2010-04-14 04:59 AM - pinux -

<b>Status:</b> Closed	
<b>Priority:</b> Low	
<b>Assignee:</b> nobody -	
<b>Category:</b> GUI	
<b>Pull Request or Patch supplied:</b>	<b>Resolution:</b> fixed
<b>Easy fix?:</b> No	<b>Copied to github as #:</b> 12712
<b>Description</b>	
It should be possible to select the default column for the quick search in attribute table, as it is possible to select the display field for the identify tool. Or the display field could be used as default column for quick search.
