As alexbrui had reported by his attachment message, his patch fixed only the selection by number (the first issue).

I've been searching for the second problem, but I haven't found it yet. I think is very important to fix it ASAP, it blocks the release...

#6 - 2010-07-03 05:45 PM - Giuseppe Sucameli

Attached a patch to fix the random selection within subsets (the second issue).

Now we can finally close this ticket!
