| *Under Windows (osgeo4w) does not occur.*

doesn't crash on Debian unstable either, but I don't have a raster enabled oracle database here. Do you?

In commit:1ac041a4 (SVN r13594) it doesn't try to connect to the database, if no connection is define. I suppose that is where it crashes for you.

no I don't, but qgis was crashing on click... now it is fixed.

thanks!
