Category:	Rasters		
Affected QGIS version:		**Regression?:**	No
Operating System:	All	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	fixed
Crashes QGIS or corrupts data:		**Copied to github as #:**	12854

Description

Since the GRASS provider in not GDAL anymore the GRASS properties in QGIS are almost all broken. This has been pointed/discussed a couple of times in the dev mailing list. The properties dialog needs to be at least reorganized by removing all the dialogs that are not functional anymore.

History

#1 - 2011-03-09 01:47 AM - Giovanni Manghi

- Resolution set to fixed

- Status changed from Open to Closed

This is no more the case with the newest revisions and the new raster provider.
