Any items of View menu doesn't work (see attachment).

I guess that 'Tile scale slider' the same as 'Panels'->'Tile scale' and 'Live GPS tracking' the same as 'Panels'->'Track GPS location'.

the way they work is, when you click on them, they appear in the panels, but are switched off, not very intuitive

#2 - 2010-06-30 08:51 AM - Maxim Dubinin

oh wait wait wait, corrections

a) they do show up

b) if I restart QGIS they are already in panels and I don't really know how to remove

#3 - 2010-06-30 09:04 AM - Jürgen Fischer

- Status changed from Open to Closed
