QGIS Application - Bug report #2853
Right menu shows after error about could not add ring

2010-06-30 10:26 PM - dr -

Status:	Closed		
Priority:	Low		
Assignee:	nobody -		
Category:	Digitising		
Affected QGIS version:		**Regression?:**	No
Operating System:	Windows	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	fixed
Crashes QGIS or corrupts data:		**Copied to github as #:**	12913

Description

1. Create new polygonal vector layer;

2. Create polygon and draw ring (by Add Ring tool) within it.

3. Try to draw second ring which intersect first and get an error message: "The inserted Ring is not contained in a feature". Click Ok button and get right menu.

History

#1 - 2010-06-30 10:38 PM - dr -

The same problems:

1. Choose Split Features tool and click right button anywhere in View;

2. Get an error 'An error occured during feature splitting'. Click Ok and get right menu.

1. Choose Add Part tool and click right button anywhere in View;

2. Get an error 'No feature selected. Please select a feature with the selection tool or in the attribute table'. Click Ok and get right menu.

#2 - 2010-06-30 11:01 PM - dr -

And...
1. Open any vector layer, toggle editing;

2. Choose Reshape Features tool and start *quickly* to click in the View by right button... get right menu :-)

#3 - 2010-07-01 12:00 AM - Jürgen Fischer

- Resolution set to fixed

- Status changed from Open to Closed

hopefully "fixed" in commit:6b0a6e92 (SVN r13865) (see also #2239)
