

QGIS Application - Feature request #2863

Patches to apply after version 1.5.0 is tagged

2010-07-04 08:23 AM - gjm -

Status: Closed	
Priority: Low	
Assignee: gjm -	
Category: Build/Install	
Pull Request or Patch supplied:	Resolution: fixed
Easy fix?: No	Copied to github as #: 12923
Description	
<p>Attached are some non-urgent changes that can applied after 1.5.0 is tagged. I've placed the patch here so that I don't forget about them:)</p> <p>They were done to get qgis to compile and run on my opensuse 11.2 system.</p> <p>They are mainly to allow cmake to more automatically configure the compile process and also for qgis to work more easily if installed in a non-normal place.</p>	

History

#1 - 2010-07-12 10:38 AM - gjm -

Another thing to do is the consolidation discussed at the end of ticket #2882.

#2 - 2010-07-18 04:49 AM - gjm -

- Resolution set to fixed

- Status changed from Open to Closed
