

QGIS Application - Feature request #2935

More flexible snapping options

2010-08-11 06:11 AM - zicke -

Status: Closed	
Priority: Low	
Assignee: nobody -	
Category: Digitising	
Pull Request or Patch supplied:	Resolution: fixed
Easy fix?: No	Copied to github as #: 12995
Description	
While digitizing a lot it can be very annoying to turn on/off and change the snapping options.	
i) It should be able to assign a default snapping behaviour to every added layer.	
ii) The snapping options gui should be dockable.

- Resolution set to fixed

- Status changed from Open to Closed

ad i:

A default snapping behaviour can be defined in Settings/Options/Digitizing/Snapping

ad ii:

The snapping GUI is dockable in Trunk (Settings/Options/Open snapping options in a dock windows)
