### Description

Hi,

I have tried to install Quantum GIS version 1.5 [QGIS-OSGeo4W-1.5.0-14109-Setup.exe] on Windows 7 Professional, but the installation can't finish. The snapshot is here:

However, I succeed in installing QGIS version 1.4 on the same computer.

Best regards,  
Gatot Pramono

Is the [1.6 installer](#) working?

- Resolution set to worksforme

- Status changed from Open to Closed

I assume it works, as I have installed in many PCs. Please check and reopen if appropriate.
