QGIS Application - Bug report #2981 Can't install

2010-09-04 06:01 PM - gatothp -

Status: Closed **Priority:** Low Assignee: nobody -Build/Install Category:

Affected QGIS version:

Regression?: No **Operating System:** Easy fix?: Windows No

Pull Request or Patch supplied: Resolution: worksforme Crashes QGIS or corrupts data: Copied to github as #: 13041

Description

Hi,

I have tried to install Quantum GIS version 1.5 [QGIS-OSGeo4W-1.5.0-14109-Setup.exe] on Windows 7 Professional, but the installation

can't finish. The snapshot is here:

http://www.box.net/shared/254cuoi2ea

However, I succeed in installing QGIS version

1.4 on the same computer.

Best regards, Gatot Pramono

Is the 1.6 installer working?

#2 - 2011-03-02 08:01 AM - Paolo Cavallini

- Resolution set to worksforme
- Status changed from Open to Closed

I assume it works, as I have installed in many PCs. Please check and reopen if appropriate.
