

QGIS Application - Feature request #3026

Multiple layer/group drag and drop

2010-09-20 01:18 PM - Giovanni Manghi

Status:	Closed	
Priority:	Low	
Assignee:	Jürgen Fischer	
Category:	Map Legend	
Pull Request or Patch supplied:		Resolution: duplicate
Easy fix?:	No	Copied to github as #: 13086
Description		
<p>I just tested the nested groups patch and is great! I would also suggest one thing about multiple selection of layers/groups:</p> <p>actually selecting multiple layers/groups and dragging them to another level/group it moves just one of them, I guess it would be expected to see move all of them.</p>
