

QGIS Application - Feature request #3040

Local gdal man page clicking on GdalTools' Help button

2010-09-23 04:12 PM - Giuseppe Sucameli

Status:	Closed	
Priority:	Low	
Assignee:	Giuseppe Sucameli	
Category:	Python plugins	
Pull Request or Patch supplied:		Resolution: fixed
Easy fix?:	No	Copied to github as #: 13100
Description		
[[GdalTools]] should open the local gdal docs (if installed), to allow users to see docs also when offline.		
Finding the local html file is too difficult, because each OS/user could install it in a different path.		
The only way may be to allow users to select the gdal docs folder. If a user set up the docs path in the settings dialog, then the Help button will load the local doc.
