

QGIS Application - Feature request #3040

Local gdal man page clicking on GdalTools' Help button

2010-09-23 04:12 PM - Giuseppe Sucameli

Status: Closed	
Priority: Low	
Assignee: Giuseppe Sucameli	
Category: Python plugins	
Pull Request or Patch supplied:	Resolution: fixed
Easy fix?: No	Copied to github as #: 13100
Description	
<p>[[GdalTools]] should open the local gdal docs (if installed), to allow users to see docs also when offline.</p> <p>Finding the local html file is too difficult, because each OS/user could install it in a different path.</p> <p>The only way may be to allow users to select the gdal docs folder. If a user set up the docs path in the settings dialog, then the Help button will load the local doc.</p>
