Crashes QGIS or corrupts data:		Copied to github as #: 13154
Description		
In Composer, when I want to export my layout to an image, the save as dialog doesn't show existing files in the chosen location. Export in pdf and svg do show existing folders and files.

Using Save as image, the default filter is set to PNG. Maybe there are no PNG files in that folder.

Tested with QGIS , on Fedora. Is it different on Windows?
