

QGIS Application - Feature request #3101  
let the user select a standard folder for all data produced

2010-10-09 01:59 AM - Paolo Cavallini

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	Project Loading/Saving	
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Easy fix?:	No	Copied to github as #: 13161
Description		
<p>During analyses, many new files are often produced. They can confuse user, and it can be annoying reselectin a folder to save them every time.</p> <p>An option to save all files in the same default folder (e.g. where the project is placed) would be useful. This would be similar to the way GRASS behaves.</p> <p>Additionally, a default name could be suggested (based on the command being run, on the origin layer, or on a serial number), so the use could just run the analysis and click OK.</p>		

History

- #1 - 2011-12-16 01:55 PM - Giovanni Manghi
- Target version changed from Version 1.7.0 to Version 1.7.4
- #2 - 2012-04-15 10:10 AM - Giovanni Manghi
- Target version changed from Version 1.7.4 to Version 2.0.0
- #3 - 2012-10-06 02:29 AM - Pirmin Kalberer
- Target version changed from Version 2.0.0 to Future Release - Nice to have
- #4 - 2017-05-01 12:42 AM - Giovanni Manghi
- Pull Request or Patch supplied set to No
- Easy fix? set to No
- #5 - 2018-01-29 06:57 PM - Paolo Cavallini
- Resolution set to fixed/implemented
- Description updated
- Status changed from Open to Closed
