QGIS Application - Bug report #3143
New Label Engine: ony integer values allowed for font-size in map units

2010-10-21 03:19 AM - Andreas Neumann

Status:	Closed		
Priority:	Low		
Assignee:	nobody -		
Category:	Symbology		
Affected QGIS version:		**Regression?:**	No
Operating System:	All	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	fixed
Crashes QGIS or corrupts data:		**Copied to github as #:**	13203

Description

In the new label engine one can choose between font-size in points or in map units. For font-sizes in map units it is necessary to permit non-integer numeric values, because depending on the units, the granularity of integer-based font-sizes is not good enough. Currently everything is rounded to the next integer value.

History

#1 - 2010-10-29 05:39 AM - Marco Hugentobler

- Resolution set to fixed

- Status changed from Open to Closed

Fixed in commit:030f658c (SVN r14447)

#2 - 2010-11-01 01:09 AM - Andreas Neumann

can confirm that it works now - thanks a lot!
