

## QGIS Application - Feature request #3157

### Load an editable layer as a readonly one

2010-10-26 04:42 AM - Giuseppe Sucameli

<b>Status:</b> Closed	
<b>Priority:</b> Low	
<b>Assignee:</b> nobody -	
<b>Category:</b> Map Legend	
<b>Pull Request or Patch supplied:</b>	<b>Resolution:</b> fixed
<b>Easy fix?:</b> No	<b>Copied to github as #:</b> 13217
<b>Description</b>	
<p>Would be very useful for plugins developer the possibility to add a layer in canvas disabling its editing capabilities.</p> <p>A solution could be adding a pair of methods <code>setReadOnly(bool)</code> and <code>isReadOnly()</code> for the layers. If set as read only, editing would be disabled.</p>
