## QGIS Application - Bug report #3171 Offline editing plugin: fails with MULTI geometries

2010-10-31 11:42 PM - Paolo Cavallini

Status: Closed **Priority:** Low

Assignee: Marco Hugentobler

Category: C++ Plugins

Affected QGIS version: Regression?: No **Operating System:** Easy fix?: No **Pull Request or Patch supplied:** Resolution: fixed Crashes QGIS or corrupts data: Copied to github as #: 13231

## Description

The offline editing plugin does not detect the Multi-geometry types correctly.

It tries to import MULTIPOLYGON geometry to a POLYGON layer, and MULTIPOINT to POINT, which results in errors.

All geometry types should be supported.

## **History**

## #1 - 2010-11-12 04:16 AM - Paolo Cavallini

- Resolution set to fixed
- Status changed from Open to Closed

Seems fixed now. Thanks.
