Pull Request or Patch supplied:		**Resolution:**	
Easy fix?:	No	**Copied to github as #:**	13245

Description

Currently (on ubuntu at least) there are the following port options:

- local gpsd
- /dev/ttyS0 to ttyS3
- usb:

My tracker registers as /dev/ttyACM0. It would be great if I could add this to the list of ports. Otherwise, I don't see how I can use GPS tools plugin to download recorded tracker data.
