

QGIS Application - Bug report #3192 (OS X Leopard) Print composer - font type change not working

2010-11-07 12:50 PM - zealmeida -

Status: Closed	
Priority: Low	
Assignee: Marco Hugentobler	
Category:	
Affected QGIS version:	Regression?: No
Operating System: OS X	Easy fix?: No
Pull Request or Patch supplied:	Resolution: duplicate
Crashes QGIS or corrupts data:	Copied to github as #: 13252

Description

I'm not able to make changes in print composer to font type in legends and labels. It seems to be working fine with scale bar and I can change font color only in labels (but not size or type as in legends). A screencast in attachment may explain better the problem.

Is there a way to solve this?

The package used to install qgis was

<http://www.kyngchaos.com/files/software/unixport/Qgis-1.5.0-2-Leopard.dmg>

with all the necessary frameworks.

Thanks!
