

QGIS Application - Feature request #3197
mapserver export, no outline

2010-11-11 01:13 AM - Giovanni Manghi

Status:	Closed	
Priority:	Low	
Assignee:	Borys Jurgiel	
Category:	Python plugins	
Pull Request or Patch supplied:		Resolution: fixed
Easy fix?:	No	Copied to github as #: 13257

Description

This has been "intercepted" in the Italian goss mailing list. A user said that in the mapserver export plugin, when choosing "no outline", he always get as result OUTLINECOLOR 0 0 0 in the mapfile.

Then he wrote again suggesting a working modification to the code

```
outlinestyle = self.getSymbolProperty(symbolNode, 'outlinestyle')
...
...
...
if 'NoPen' != outlinestyle:
    class_def += "    OUTLINECOLOR " + outlinecolor + "\n"
"
```
