QGIS Plugin Site - Bug report #32
Django cannot send emails

2011-05-19 06:05 AM - Alessandro Pasotti

Status:	Closed
Priority:	Normal

Description

Notifications are not sent out, we noticed this in Lisbon.

With default config Django tries to sent emails with SMTP on localhost:25
After some more investigations it seems like there is nothing listening on port 25 on qgis.org,

I don't know who is the admin on this server.

Tim perhaps you know how to (or who can) solve this?

"mail" command works fine from the shell.
