

QGIS Application - Bug report #3319

Saving shapefile as AutoCAD dxf

2010-12-11 08:56 AM - OB -

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	Build/Install	
Affected QGIS version:		Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:		Resolution: duplicate
Crashes QGIS or corrupts data:		Copied to github as #: 13379
Description		
<p>Hello,</p> <p>i have tried saving a shapefile as [[AutoCAD]] dxf and it does not work. I get the following error which appears for any shapefiles i have tried, including ones I have created:</p> <p>Export to vector file failed.</p> <p>Error: creation of field DN failed (OGR error: DXF layer does not support arbitrary field creation.)</p> <p>DN is the name of the field, i tried deleting this and got the same error with FID.</p> <p>Thanks</p> <p>Oliver</p>
