

QGIS Application - Feature request #3350

Histogram: let the user set min,max in x axis

2010-12-19 06:08 AM - alobo -

Status:	Closed	
Priority:	Low	
Assignee:		
Category:	Rasters	
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Easy fix?:	No	Copied to github as #: 13410
Description Many raster layers include outlier values which make display of the histogram almost useless unless these values can be discarded. The user should be able of setting min,max values for the x axis.

I would like to help in implementing this feature. I have prior experience in c++ and QT, but not much in QGis coding. I have been using QGIS and GDAL for about a year. Is there anyone willing to help me out getting started, maybe some suggestions?

thanks, Etienne

#2 - 2011-08-01 03:04 AM - Giovanni Manghi

- Assignee deleted (nobody -)

- Pull Request or Patch supplied set to No

please write in the qgis-developer mailing list, thanks.

#3 - 2011-12-16 01:50 PM - Giovanni Manghi

- Target version changed from Version 1.7.0 to Version 1.7.4

#4 - 2012-04-15 10:10 AM - Giovanni Manghi

- Target version changed from Version 1.7.4 to Version 2.0.0

#5 - 2012-10-06 02:23 AM - Pirmin Kalberer

- Target version changed from Version 2.0.0 to Future Release - Nice to have

#6 - 2015-11-19 05:42 AM - Médéric RIBREUX

- Resolution set to fixed/implemented

- *Status changed from Open to Closed*
- *% Done changed from 0 to 100*

Hello, bug triage...

this feature is now completely implemented: you can define the min/max value for each band from the histogram tab.

I am closing this feature request.
