QGIS Application - Feature request #3351
Histogram: let the user browse x values

2010-12-19 06:10 AM - alobo -

Status:	Closed			
Priority:	Low			
Assignee:				
Category:	Rasters			
Pull Request or Patch supplied:	No	**Resolution:**	fixed/implemented	
Easy fix?:	No	**Copied to github as #:**	13411	

Description

Browsing the actual raster values in the histogram is very useful for setting appropriate stretching values.

History

#1 - 2011-08-01 05:57 AM - Etienne Tourigny

What do you mean by browsing the actual raster values? In what way can it be useful?

I am looking into modifying the histogram tab view to implement feature #3350.

#2 - 2011-12-16 01:50 PM - Giovanni Manghi

- Target version changed from Version 1.7.0 to Version 1.7.4

#3 - 2012-04-15 10:10 AM - Giovanni Manghi

- Target version changed from Version 1.7.4 to Version 2.0.0

#4 - 2012-10-06 02:31 AM - Pirmin Kalberer

- Target version changed from Version 2.0.0 to Future Release - Nice to have

#5 - 2015-11-19 05:47 AM - Médéric RIBREUX

- Pull Request or Patch supplied set to No

- Status changed from Open to Closed

- Resolution set to fixed/implemented

- % Done changed from 0 to 100

- Assignee deleted (nobody -)

Hello, bug triage...

this feature if fully implemented into QGIS. User can select min/max for x value (pixel value) of the histogram directly on the histogram diagram. Min/Max limits can be displayed on the histogram to see the values for each band.

I am closing this feature request...
