

QGIS Application - Feature request #3384

Measure tool ignore 'measure\\ellipsoid' QGis settings

2011-01-03 01:13 AM - Sergey Yakushev

Status:	Closed	
Priority:	Low	
Assignee:	Marco Hugentobler	
Category:	GUI	
Pull Request or Patch supplied:		Resolution: fixed
Easy fix?:	No	Copied to github as #: 13444
Description		
Measure tool ignore 'measure\\ellipsoid' QGis settings and use always WGS 84		
this path fix it.		

History

#1 - 2011-01-03 05:20 AM - Marco Hugentobler

Thanks for the patch, I'm going to review it in detail in the next few days. Afaik, current approach is to use the ellipsoid of the central maprenderers `[[QgsDistanceArea]]` object (rather than calling `QSettings` in every tool).

#2 - 2011-01-04 06:33 AM - Marco Hugentobler

- Resolution set to fixed
- Status changed from Open to Closed

The patch is applied in commit:862024a7 (SVN r14993). Thanks, Sergey!

I rearranged the code a bit and, following Martins advice, removed the remaining places where `[[QgsMapRenderer]]::distanceArea()` was used.
